The Carson Appeal is clamoring for an arbor day in Nevada. As sagebrush is neither valuable, ornamental nor scarce it is difficult to see why people should go to the trouble of planting it. The Nevada people can devise some other pretext for an annual spree.—Oakland Times.

Nevada has an arbor day for many years, and its fruits are the best in the world. Its apples took first premium at New Orleans over the California exhibit. California can never forget or forgive this, hence this rallying. If the Oakland journalist would change their sprees from try weeklies to annuals they would come nearer telling the truth.

For Sale—A 50-inch American Champion bicycle. Cheap at a bargain. Apply at Millard's tin shop.

ELKO BEGINNING TO MOVE.

The Free Silver Men to the Front.

In a letter to the Elko Independent is the following graphic picture of the desolation in Elko county under the existing condition of affairs:

What have we to hope from men entertaining the views of either Cleveland or Harrison? Do we not know that the opinions and actions of such men are rendering it more difficult every day to even live in Nevada.

Is it not true that nearly every one in the State would leave it at once, if he could realize anything like what his investments have cost him? How many pieces of property in the county of Elko are there, which will return to the owner one half the outlay thereon.

What has become of the market for ranch products? Where are Bullion, Spruce, Mountain City, White Rock, Columbia and other once busy mining camps in the country?

Can we always look upon the picture of desolation to be found all over our county and do nothing?

Would there be any lack of business in the town of Elko if these camps were not deserted?

In the smokeless chimneys, abandoned shafts and ruined fortune of these places we can read the history of our own deserted streets.

Are we so utterly under the influence of political mortgages that we must forever deny by our actions what we must admit to our conscience?

The faint-hearted may question: "what can we do?" In the name of common reason what have we done but follow like lambs to the slaughter? We can show to the world that we mean what we say we can encourage the citizens of sister States by our efforts, we can unite with others who are going ahead with this work and raise our voices in protest against the ruin of our homes as well as our business.

A very few electoral votes may count in the coming contest. Eighteen hundred and seventy-six may be repeated. We can at least be men and stand openly for what we believe to be our rights. No one ever gained recognition unless that recognition was demanded as of right.

The time is ripe for energetic, resolute, independent action.

The politicians will not hear nor heed us unless we compel attention.

We ask every man who is willing to lay aside partisan politics, who is willing to defend his home and the honor of Nevada to join in forming a free Silver Club in Elko. A call will be circulated soon.

HOLSTEIN CATTLE.

A Glowing Endorsement from Herman Springmeyer.

TO THE EDITOR OF THE APPEAL:—Some three years ago I purchased of you the thoroughbred Holstein bull "Silver Brick," sired by "Saratoga." I had been prejudiced against the breed, somewhat, but I determined to make the experiment, and when I purchased you agreed to take the animal back if I was dissatisfied. I wish to state that no one can purchase the bull for double what I paid. It has fulfilled all the guarantees you made for it, and more too. I judge the animal by his progeny.

I bred him to common cows, and have nearly two hundred as fine half blood heifers as one could see any where.

They are uniformly like the sire in color—black and white, and the heaviest and longest milkers I ever owned.

I have a three-year-old giving 20 quarts of milk a day and keeping up its lick right along.

The only trouble I have with them is the difficulty of drying them up when about to calve.

I have one about to come in in a few days, and she is giving eight quarts of milk daily in spite of all efforts to dry her up.

I am running a creamery on these cattle, and I can say they are the best creamery cattle I know of.

There is no need of sending outside of Nevada for good Holstein blood. I know some who have sent to California for bulls and paid a bigger price than I did, but the calves are "not in it" with the progeny of Silver Brick.

I find that Holstein milk produces 5 pounds and one ounce of butter per hundred pounds of milk, from mixed timothy and alfalfa. Second crop alfalfa produces 4 pounds and 15 ounces.

After the butter is made I make 9 pounds of cheese.

The butter averages through the year 30 cents per pound, and the cheese 10 cents per pound. This gives me nearly \$2.50 per hundred pounds for my milk.

I do not think any other breed of cattle can produce such splendid results.

HERMAN SPRINGMEYER.
